07/25/24	JTC	Review email from Simon Fraser of Cozen re: WARN analysis; will need to fine-tune the final WARN Act claim figures based on the severance issue, and the payments in advance that the debtors apparently gave to certain employees; with respect to the latter, that won't move the needle; at the most, all that will do is potentially take the handful of employees who received those payments out of the class (i.e., because their damages would likely become \$0); however, those folks are a small portion of the approximately 966 class members	BKA427	0.20	192.00

07/29/24	JTC	Draft detailed email to Bill Homony (TTE's accountant) re: WARN Settlement Agreement and Joint Motion drafts; advise do not believe that the law permits a reduction of WARN damages for severance payments absent a waiver agreement; as to any WARN damage payments to be made under our pending 507(a) (4) motion as a priority, there should be a reduction for same; inquire if have those numbers so the schedule can be adjusted; advise to the extent an employee has filed a POC with WARN component opts out of the Class Action Settlement but has not been included in the first 507(a)(4) motion, the settlement should provide for a reduction in settlement payment attributable to that employee; advise of "job loss" issue	BKA427	0.40	384.00
07/29/24	JTC	Review email from Bill Homony (TTE's accountant) re: WARN Settlement Agreement and Joint Motion drafts; advise not sure if can utilize to force an "opt-in" to the class	BKA427	0.10	96.00

07/29/24	JTC	Review and respond to email from Simon Fraser of Cozen re: WARN Settlement Agreement and Joint Motion drafts; rule 23 mechanism; JTC request contact to discuss approach; need more time to vet the list; will also need to address employees who signed releases of WARN liability in addition to getting the list of 507(a)(4) motion covered employees	BKA427	0.10	96.00
07/29/24	JTC	Review and respond to email from Simon Fraser of Cozen re: WARN Settlement Agreement and Joint Motion drafts; advise another way to address the issue of potential class members with WARN POC; JTC advise do not think know whether the WARN damages claims are being paid in full as 507(a)(4) claim; there may be excess portions of WARN damages as GUC	BKA427	0.10	96.00
07/29/24	JTC	Review email from Simon Fraser of Cozen re: WARN Settlement Agreement and Joint Motion drafts; advise thinks that the best way to address the "reduction" issue is to calculate the final numbers now, and bake them into the class settlement papers; as part of the noticing procedure will have to tell the potential class members what they stand to receive through the class settlement, so do not think have a way around it; if do not finalize the numbers, suspect that the court might not let us past the preliminary hearing.	BKA427	0.20	192.00
07/29/24	JTC	Review email from Simon Fraser of Cozen re: WARN Settlement Agreement and Joint Motion drafts; advise thinks there will be a GUC portion; maybe TTE motion should be to: (i) give them allowed claims as asserted (I know they're prima facie valid; and (ii) pay the priority portion now with the GUC to be paid at the same time, and in the same %, as all other GUCs; the idea would be to effectively take these claims off the table for all WARN Act purposes. 08/01/24	JTC	Review detailed email from Simon Fraser of Cozen re: call scheduled with Mary Olsen (WARN counsel) to discuss the drafting of the settlement papers; advise if possible, would like to speak about the variables in play for the settlement class composition and claim amounts; normally, when file a Rule 23(e) settlement class motion, we've got the class composition (absent opt-outs, which are dealt with via the 23(e) process) and claim amounts nailed down; in this case, however, will need to draft around the variables still in play; the issue that particularly want to discuss is the fact that some of the folks who would otherwise be in the settlement class will need to be pulled out on the grounds that they waived their WARN Act rights against the debtors in their severance agreements; would like to get a sense of how many people Bill Homony thinks waived their WARN Act rights, and when think might be able to identify all of them.	BKA427	0.20	192.00
08/01/24	JTC	Review email from Simon Fraser of Cozen re: conversation with Bill Homony on WARN action; advise seems that the "severance/waiver" people won't be an issue; Bill thinks that those folks were all terminated prior to the "mass layoff" on Feb. 22nd or 23rd; if that's so, none of them would be listed on the spreadsheet that forms the basis for class membership; which means that not going to have to deal with the issue in the context of the WARN Act settlement; with that issue out of the way, the only variable in play will be the split between the priority and GUC pieces for certain settlement class members; does not think that's a big deal to address in the settlement papers	BKA427	0.10	96.00
